

Economy and shoulder width are proportional

(Rule if you want to have a butt)

When I go out often, even when I'm wearing a regular one-piece sweatshirt or clothes that don't particularly show off my body lines, people sometimes loudly say it's "sexy."

Maybe it's because I have an "innocent, sexy face" to begin with, but even my most casual gestures are sexy,

but it seems like everything I wear feels that way...

- ① A ctually, when I say "hakushon," I cover my mouth with both hands.
- ② A ctually, I sometimes fart.
- ③ M y mouth is small.
- ④ S ome people seem to think I'm refined.
- ⑤ A nyway, I like my appearance. People laugh at me, but I'm happy about it.

After all, "If you want to be a butt, be the party leader"...

As you all already know, this is a funny piece.
