

## People you don't want to take with you

**"want to make a good impression"**

From a woman's perspective

- \* Very gentle impression (hoping to make a good impression)
- \* No personality (hoping to make a good impression)

From a man's perspective

- \* Very gentle impression (hoping to make a good impression)
- \* Some personality (hoping to make a good impression)

The above gender-specific aspects are my own personal thoughts.
