

A Day in the Life of a Baby Teacher

keep on working hard like samadhi

(Specific examples)

I am currently a university student studying for a teaching license in high school and junior high school English.

*Students say that the teacher resembles their 2-year-old niece.

*Looks like the one being taught.

*Erotic

It seems like a lot of things will come up.

Recently, I've seen videos of people being confronted and questioned during investigations into infidelity and cheating.

However, these are merely investigations conducted at the client's request and do not constitute a criminal offense (adultery under the Meiji Constitution).

While they touch upon ethical and moral issues, they are not illegal as criminal offenses.

Such confrontation could, conversely, be considered extortion.

It is normal in the case of civil lawsuits seeking damages.

I am posting this from a neutral standpoint, strictly adhering to the law.

Works related to this have already been posted on the website and published on Amazon, but that's a separate matter.
